

## **AWAREness Journal 2009**

### ***Call for Articles Promote your latest Sustainability Education project!***

AWARENESS provides 'snapshots' of the broad range of innovative waste and resource education initiatives, programs and projects that have been developed and evaluated during 2008/2009. It's a vital record of the great work being undertaken by educators, including consultants, and a chance to share inspiration and experiences. See previous editions of AWAREness at [www.aware.asn.au](http://www.aware.asn.au). (You will need to be a current member of AWARE. Membership forms available from the website).

### **We invite your contribution!**

Your contribution could describe the issues your project was designed to address, things that did and didn't work, learnings gained from the experience, results achieved and the resources that were created – and links to make resources available for others to use. Articles that provide details of sustainability behaviour change programs and project evaluation are of particular interest.

#### **Contribution requirements**

Please provide 3 separate electronic files:

**1. Word file – Text format**

- Under *Save as type* select *Plain text (\*.txt)*
- no formatting
- text limit 350 words
- text edited and spell checked
- DO NOT put pictures in word document
- Include your name, position, organisation, contact number, fax, email and website
- Include captions for your photos in this document
